

# INSTALLATION INSTRUCTIONS

## FOR ROUND DOORSTOPPER

### PARTS

Door Stopper

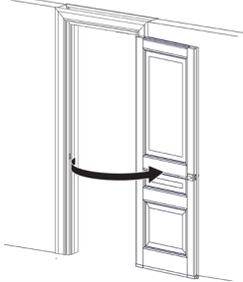

Door Stopper Cover

Dowel Screw

Screw

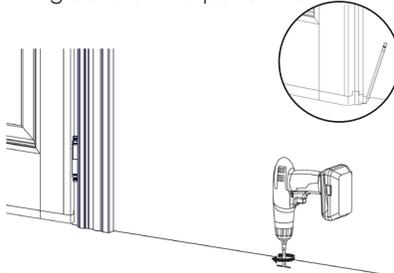

### STEP 1

Swing the door open to the spot where you would like it to be stopped.

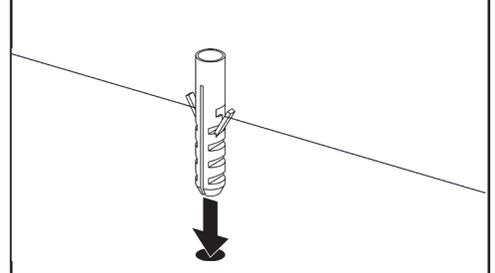

### STEP 2

With a pencil, mark the spot on the ground, then using an 8mm drill bit, drill a hole in the ground on the pencil mark.

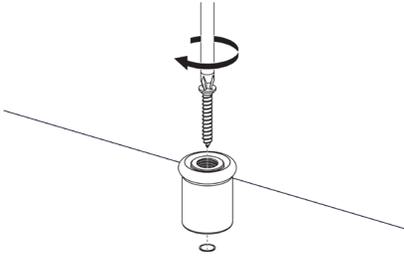

### STEP 3

Insert the Dowel Screw into the hole on the ground.

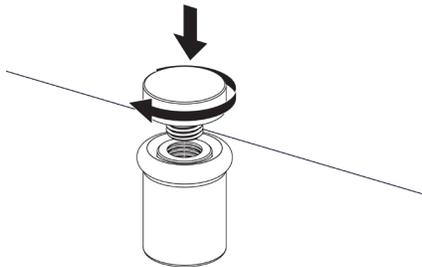

### STEP 4

Unscrew the cover from the doorstopper. Insert the screw through the doorstopper and into the ground.

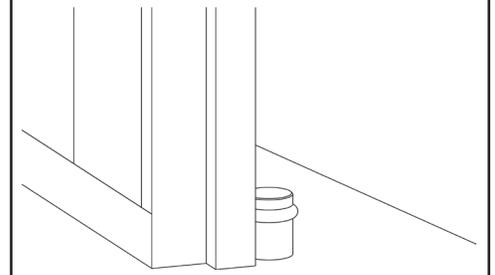

### STEP 5

Screw the cover back onto the doorstopper.

### STEP 6

Your doorstopper is installed! Your wall is protected from being damaged or scratched.
